## Build a Block Tower Game

## Instructions:

Print the game board on cardstock. If desired, laminate for durability.
Find a dice and two objects to use as game markers (buttons, small plastic animals, or whatever you like). Put markers on the START spot.

Players each start with two bricks and begin to form a tower. Players take turns rolling the dice and move to the appropriate spot on the game board. Players continue taking turns and building towers until both players make it to FINISH. The player with the tallest tower wins the game.
